## Forthcoming Activities

### Seminar on Getting IT to Deliver Business Value The Next Generation of IT Service Management

(Co-organized by BCS UK and BCS HKS, Supported by HKTDC)

The Hong Kong Section is pleased to invite you to attend a free briefing on "Getting IT to Deliver Business Value - the Next Generation of IT Service Management" to contribute to the continuing career development of the IT Community in Hong Kong and China.

As you may be aware ITIL® is a globally used and accepted approach to IT Service Management. Conceived in late 1980's by OGC (UK Government), it has become an industry, technology, and vendor independent worldwide standard. There are over 150,000 trained ITIL® professionals across the world, with active ITIL® practitioners in 70+ countries worldwide.

The speakers from BCS UK and QAI, a BCS ISEB accredited training provider, will share their experiences with ITIL® Best Practices, ISEB qualifications and the importance of international IT standards to BCS IT professional members.

Please register yourself to attend the seminar on 16 April 2008 (Wednesday) at 11:00am - 12:30pm in room 402-403, HKCEC. The event details are available [here](#). Registration step is simply email you name and membership number to [bcseq@bcs.org.hk](mailto:bcseq@bcs.org.hk). Members pre-registered and attend the seminar will get a souvenir from the Section.
