BCS (Hong Kong Section) Member Survey

BCS (Hong Kong Section) Member Survey

You are cordially invited to participate in a study conducted by BCS (Hong Kong Section).

The purpose of the survey is to build a more comprehensive membership list with more information (industry, occupation, rank etc.) also to ask about their area of interests (cybersecurity, blockchain etc.) and activities that they are interested in (seminar, webinar, visit etc.) The data will be used for membership promotion and service improvement on BCS (Hong Kong Section).

Please click [here](#) to take part in the survey.

Registration:	Register

Webinar: Strategic Engagement of IT and Business: Roadmaps & Managing Demand - Consultancy SG

Convergence is making effective partnering between IT and the business critical. And the BCS sponsored some of the original research in the mid 1980s at Oxford that first identified the benefits of IT business partnering. Yet today organisations are still reporting a worrying gap between where they are and where they know they need to be on strategic

engagement. Amongst global corporations only a quarter report that they have effective engagement between IT and the business in shaping business strategies that effectively leverage IT.

This event will focus on the challenges for IT departments of strategically managing the demand for IT and digital services and has most relevance to IT management consultants and for IT and business leaders in large and complex organisations needing to develop the effectiveness of the partnering between their increasingly complex IT and business communities.

Date:	24 July 2020 (Friday)
Time:	01:30 – 03:00 (Hong Kong Time)
Speakers:	Dr Alan Warr BA MBA MSc PhD CITP MBCS FCMI FIC
Registration:	Register
